## Education

### Base Camp Coding Academy

June 2023 - May 2024 Water Valley, MS

Base Camp Coding Academy (BCCA) is a hands-on, challenging, and fun program designed to train recent high school graduates to be software engineers. In an intimate classroom setting, students work with real world technologies to learn the fundamentals of coding, app development, and the life leadership skills they will need to be successful in their career and competitive in the job market upon graduation.

- Management Team (facility maintenance)
- Afterschool Coding Program - Davidson Elementary

### New Albany High School

## Projects

**Sharespace - File Sharing Platform**
- Made with django
- ShareSpace is a user-friendly file sharing platform that allows users to upload, manage, and share various file types with ease.
- Sharespace Repository
- https://filesharespace-b34f47f2d4b2.herokuapp.com/

**Vocabulary Expander - Vocabulary Game**
- Made with react
- Vocabulary Expander is a game I made using 2 apis. The player has to match the right definition to the word.
- Vocabulary Expander Repository
- https://vocabularyexpander-8faa3f38d6a4.herokuapp.com/

**Passvault - Password Manager**
- Made with python
- Passvault is the password manager I made to store your passwords for an unlimited amount  of online services. Passvault also allows you to generate secure random passwords.
- Passvault Repository
